## **IES WEBCAST**

### **Sustainable Lighting Controls for Residences and Commercial Building Commissioning**

**Presenters: Manny Feris, Lutron Electronics & Kyle Gotliebson, Square D**

This presentation will provide you with Sustainable Tools for Residential Lighting Control, as well as an overview of the Commissioning Process for Commercial Buildings. Participants will:

Gain an overview of how controls can lower energy use while providing a variety of options for different at-home tasks, including family rooms, media rooms, home offices, exterior security lighting and daylight control for Residential Projects.

Gain an overview of how to engage with local contractors for installation and training, as well as program “tweaking” on a long term basis.

Understand how Commercial Commissioning is becoming ever more important to the success of ensuring that controls are installed and operated according to spec.

Participants will learn how to start a project off with the right tools and how to design the project with controls in mind.

Tips and pitfalls of end-of-project commissioning process.

Participants are eligible for: IES CEUs / AIA LUs: 1.5 / PDH's 1.5

**7:00 pm**

**Wednesday, March 10, 2010**

Duration: Approx 70 minutes + Q & A

M/E Engineering

150 North Chestnut St., Rochester NY 14604

Reservations Required

\$30 [after 2/19 \$45]
